Appendix P. Feasibility Survey

Greetings!

We are a group of BS Information System students from De La Salle University - Manila and we have been fortunately given the opportunity to develop a Project Management System that is specifically designed to fit the needs and business processes of Takira Enterprises, Inc. (TEI). As a member of the said company, it would be our greatest pleasure for you to participate in answering our survey regarding your stand and opinions on the proposed system. The survey will take no more than 10 minutes and we guarantee that all information given will be strictly confidential.

Thank you!

Name (optional): _____   Age: _____

Instructions: Read each question carefully and answer as accurately as possible. For multiple-choice/scale questions, tick the circle that corresponds to your choice.

1. How long have you been working for TEI? __3__ years / _____ months

2. What department do you fall under?
● Facilities Administration (FAD)
○ Marketing and Business Development
○ Finance
○ Procurement
○ Human Resources and Office Admin
○ Store Operations
○ Management Information System (MIS)

3. What are the tools currently being used in monitoring and controlling projects? (Tick all that apply)
● Microsoft Excel
○ Facebook / Facebook Messenger
○ Microsoft Word
○ WhatsApp / Telegram / Viber
○ Online Gantt Chart Software
○ Trello (Project Management Application)
○ SMS Messaging / Phone Calls
● Glip (Team Collaboration Software)
● Email
○ Physical Communication (In-Office)
○ Others:

4. How satisfied are you with the current process and tools used in managing projects? (Example of projects: New Store Opening, New Product Launch, Departmental Projects, Onboarding, Offboarding, etc.)
○ Highly Satisfied   ○ Satisfied   ● Neutral   ○ Dissatisfied   ○ Highly Dissatisfied

5. In your honest opinion, do you think the current process and tools used in managing projects are effective to launch a successful project?
○ Yes   ● Somewhat   ○ No

6. In relation to your answer in Question # 5, explain why you chose that answer. Cite examples if necessary.
_____

7. What are the common problems that you face during the project management process?
BUDGET

8. How likely are you to be willing to alter the current process of managing projects to a slightly more tedious one that can offer lesser problems?
○ Highly Likely   ○ Likely   ● Neutral   ○ Not Likely   ○ Highly Not Likely

9. How likely are you to use the proposed Project Management System if it is successfully launched in the company?
○ Highly Likely   ○ Likely   ● Neutral   ○ Not Likely   ○ Highly Not Likely

10. What are your suggestions to improve the design and functionalities of the proposed Project Management System?
_____

Greetings!

Thank you!

Name (optional): __NOEL__   Age: __47__

Instructions: Read each question carefully and answer as accurately as possible. For multiple-choice/scale questions, tick the circle that corresponds to your choice.

1. How long have you been working for TEI? __17__ years / __ months

2. What department do you fall under?
- ● Facilities Administration (FAD)
- O Finance
- O Human Resources and Office Admin
- O Management Information System (MIS)
- O Marketing and Business Development
- O Procurement
- O Store Operations

3. What are the tools currently being used in monitoring and controlling projects? (Tick all that apply)
- ● Microsoft Excel
- ● Microsoft Word
- O Online Gantt Chart Software
- ● SMS Messaging / Phone Calls
- ● Email
- O Others:
- O Facebook / Facebook Messenger
- O WhatsApp / Telegram / Viber
- O Trello (Project Management Application)
- ● Glip (Team Collaboration Software)
- O Physical Communication (In-Office)

4. How satisfied are you with the current process and tools used in managing projects? (Example of projects: New Store Opening, New Product Launch, Departmental Projects, Onboarding, etc.)

O Highly Satisfied   ● Satisfied   O Neutral   O Dissatisfied   O Highly Dissatisfied

5. In your honest opinion, do you think the current process and tools used in managing projects are effective to launch a successful project?

O Yes   ● Somewhat   O No

6. In relation to your answer in Question # 5, explain why you chose that answer. Cite examples if necessary.
NOT ALL OF OUR PROJECTS ARE SUCCESSFUL.

7. What are the common problems that you face during the project management process?
DELAYS AS PER SCHED

8. How likely are you to be willing to alter the current process of managing projects to a slightly more tedious one that can offer lesser problems?

O Highly Likely   O Likely   ● Neutral   O Not Likely   O Highly Not Likely

9. How likely are you to use the proposed Project Management System if it is successfully launched in the company?

O Highly Likely   ● Likely   O Neutral   O Not Likely   O Highly Not Likely

10. What are your suggestions to improve the design and functionalities of the proposed Project Management System?
